Summary

I am a self-taught web developer passionate about creating and enhancing web applications. I thrive on solving complex problems with clean, efficient code and continuously seek out new tools and best practices to expand my expertise.

Skills

Programming Languages: JavaScript, TypeScript, Python, HTML, CSS

Frameworks & Libraries: React, Next.js, Node.js, Express, Auth.js, NextAuth, Supabase, Tailwind CSS, Bootstrap

Databases & Technologies: Git, GitHub, MongoDB, Netlify, Vercel

Education

Al Alson High Institute, affiliated with Ain Shams University

Cairo, Egypt

BACHELOR OF SCIENCE IN COMPUTER SCIENCE

Dec. 2012 – Jul. 2015

- Relevant coursework: Computer Networking, CCNA, Programming Languages

Projects

Easy-get eCommerce Web Application

frontend, backend

JAVASCRIPT | TAILWIND | NEXT.JS | CONTEXT | VERCEL | NEXTAUTH.JS (DEPLOYMENT)

Jan. 2024

- Developed a modern, responsive eCommerce web app using Next.js with server-side rendering for improved performance and SEO.
- Created a clean, mobile-first UI using Tailwind CSS, prioritizing user experience and intuitive navigation.
- Deployed on Vercel for scalable, reliable hosting and optimized page load speeds.
- Deployed the project on Vercel for reliable, scalable hosting.
- **Live Demo:** [Easy-Get](#)

The Wild Oasis – Full-Stack Booking Platform

frontend, backend

NEXT.JS | SUPABASE | TAILWIND CSS | AUTH.JS | VERCEL

Mar. 2024

- Built a full-stack, responsive cabin rental web app simulating a real-world SaaS platform with both customer and admin views, using Supabase, Auth.js, and Tailwind CSS.
- Implemented secure authentication, role-based access, real-time CRUD operations, and a dynamic booking system with live availability and data syncing via Supabase (PostgreSQL).
- Deployed on Vercel with continuous integration, mobile-first design, and automatic HTTPS for fast, scalable performance.
- **Live Demo:** [the-wild-oasis](#)

Bright Mind Learning Platform

frontend

JAVASCRIPT | TAILWIND | NEXT.JS | CONTEXT | VERCEL (DEPLOYMENT)

Feb. 2024

- Built a user-friendly web app for skill learning with an intuitive interface and engaging content using Next.js and React.
- Designed responsive, cross-device UI components with Tailwind CSS to enhance user experience.
- Deployed on Vercel and gained hands-on experience in full-stack development and modern frontend tooling.
- **Live Demo:** [Bright-Mind](#)

Loft Gallery's antiques and home decor

frontend - backend

REACT | REACT ROUTER DOM | CONTEXT API | GSAP | SUPABASE | TAILWIND CSS | NETLIFY

June. 2024

- Developed a responsive web app for Loft Gallery using React, React Router, and Tailwind CSS, ensuring smooth navigation and cross-device compatibility.
- Managed global state with Context API and integrated Supabase for real-time data handling and storage.
- Enhanced user experience with GSAP animations and deployed the app on Netlify for reliable, scalable hosting
- **Live Demo:** [loft-Egy](#)
